DS6: Offender-Level File

1. **Stata Limitations**: Due to Stata limitations, the variables **BH014**, **BH016**, **FIPS_STATE**, **SEGMENT**, **V1012**, **V4017C1**, **V4017C2**, **V4017C3**, **V60071**, **V60072**, **V60073**, **V40181**, **V40182**, and **V40183** do not contain value labels for non-integer values within the Stata files.
2. **Data/Documentation Discrepancies**: A number of variables in the data do not match their description in the P.I. documentation.
3. **Additional Information**:
    a. This data collection contains several large data files. ICPSR advises users to consider how to optimize memory usage and efficient application of operations. This may include using a subset of variables and cases, as well as using vectorized operations.
    b. For additional information on the National Incident-Based Reporting System (NIBRS), please visit the NIBRS website.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
